

# Payment Distribution Platform

We provide a simple, secure online solution for cost-effective outgoing payments. Payment disbursement is a difficult and often overlooked necessity for many businesses. We make it easy.

Our platform provides the ability for users to submit payment batches which are then processed, delivered, and tracked.

Users submit payout data via Excel, XML, FTP, or API

We send payment in the user's or recipient's desired format

Full payment status with bank integration makes tracking easy.

## Market size by payment format and type:

- ✔ 70 Billion checks are written each year
